

# New - 5 Ball Medicine Rack

£144.70

## Product Images

## Short Description

A great way to store your medicine balls, this 5 ball medicine rack is somewhat smaller than the one for 10, but is more practical for most home gyms. You can also use this for the double grip medicine balls, slam balls and wall balls if you have those too. The frame is painted with a metallic silver/grey paint and has an oval tube frame design. It is durable, sturdy and solid thanks to weighing 20kg when empty.

There are no medicine balls sold with this rack. The dimensions are width 440mm, height 1600mm and depth 550mm.

### Medicine Ball Storage Rack for 5 Balls

This is a vertical storage rack that holds up to 5 medicine balls. Great for keeping your training area clear of clutter, this rack is great for a studio, gym or for a home gym in your garage! As well as medicine balls you can also store wall balls, slam balls and the double grip medicine balls, making it slightly more versatile for the home.

The unit itself is a vertical ball storage rack with an oval tube design. The finish has been carefully thought about as the durable metallic grey paint will prevent scratches or chips and it looks great. With the rise in popularity of medicine balls for core workouts, this rack is perfect for keeping some order.

Its dimensions mean that it will save you space, especially if you can place it into the corner or alongside other racks for dumbbells or kettlebells. Exact dimensions for you to see how it could fit in are width - 560mm, height - 1490mm and depth - 650mm.
