£1,099.00

## Product Images

## Short Description

---

The sturdy frame and heavy flywheel ensures the Sole SB900 indoor cycle gives you a smooth workout every time. With great style and access to great performance, any one that loves cycling can get a buzz out of the SB900. The New 2021 Sole SB900 indoor cycle was designed to be used in the home, but to give you the feeling of being outdoors. The magnetic resistance also gives you precise resistance every time.

## The New Sole SB900 Indoor Cycle

What's great about this model is that the seat and handlebars are adjustable vertically and horizontally to ensure any user can find their optimal riding position. It also has a new console displaying, speed, distance, RPM, time and Kcal which also allows for Zwift connectivity. This great indoor cycle is perfect for home use but may also be used in a light commercial environment. With an industry leading warranty it is no wonder that Sole fitness products have received numerous 'best buy' consumer reviews. The SB900 indoor cycle is a great spin bike that will make the perfect addition to any gym.

# Sole SB900 Indoor Bike

Regardless of whether you prefer a road bike or are an indoor cycle enthusiast, comfort is extremely important. On the Sole SB900 bike the adjustable seat and handlebars move up and down as well as fore and aft, allowing a user to find just the right settings for a great workout. A heavy duty 48lb chrome plated flywheel and Kevlar braking design will make certain of a quiet and smooth ride.

With a solid, sturdy frame and 2 wheels on the front for easy transportation, the Sole SB900 ticks all the boxes. The integrated console displays RPM, time, KCal, distance and speed and is also compatible with a wireless heart rate chest strap, ensuring users that they stay within their heart rate training zones and work to get their optimal results.
