

Escape Fitness Urethane Eco Rep Set

£157.00

Product Images

Short Description

With its 20kg total weight and individual weight plates of 5kg, 2.5kg and 1.25kg this is a studio barbell that comes with environmental credentials. Escape Fitness have made the Urethane Eco Rep Set out of 93% recycled material, which means you can workout and feel happy that you're doing your bit for the environment.

Urethane Eco Studio Barbell Set

Quite a unique product, this set is made from old engine blocks that are made into small shot beads which are then mixed and blended with resin and urethane to make the weight plates. Coupled with the 30mm hollow bar, you get a superb set of great looking studio weights that suits homes or commercial premises - also available with as a set of 10 with a rack.
