

# Life Fitness Optima Series Dual Adjustable Pulley

£4,620.00

## Product Images

## Short Description

The DAP, or Dual Adjustable Pulley, provides a huge range of exercises from, in this case, a relatively small footprint. This means it's ideal for homes and smaller studios. The Life Fitness Optima Series Dual Adjustable Pulley is a premium quality commercial model backed up by their superb warranty.

# Using The Optima Series Dual Adjustable Pulley

Thanks to the 11-gauge steel frame, the nylon pulleys and coated cables and its design, you get a smooth pull action that is the same whether you use the low or high pulley positions. With the easy to adjust weights, thermo rubber hand grips and the overhead pull up bars with wide and narrow positions, this single piece of equipment is enough for most gym users.

## We Give You More...

\* Mainland UK excluding Northern Ireland and Highlands, IM and JE postcodes

## Description

---

### Why Choose A Dual Adjustable Pulley?

With floor space presumably at a premium, who has space for individual machines for your lats, arms, chest, back and legs? All of these muscle groups can be worked by a dual adjustable pulley - you just need to know how.

### Choose Your Frame Colour

As each DAP machine is made to order, you get to choose from any one of the 14 different colours for the electrostatic frame finish. Please just let us know which colour you would prefer when you order.

Actual colours are :

Platinum; Candy Apple Red; Red; Yellow; Electric Blue; Ice Blue Metallic; Blue; Mocha Sand; Titanium; Charcoal; Black; Midnight Metallic; Diamond White; and White

### Key Features

- 7x19 strand cables with lubrication and nylon coating
- Solid-steel weight plates for both stacks.
- Instructional Placards with easy to follow pictures and copy
- 7/16" (11 mm) diameter weight selector pin magnetically locks in place and is connected to stack to prevent loss
- Chrome plated solid steel guide rods for smooth motion
- 11-gauge steel frame for maximum structural integrity
- Rubber feet for floor protection and non-slip
- Electrostatic powder coat finish for durability

- Commercial-grade DAP
